Business Travel
Solutions

WORLD WIDE PROTECTION YOU CAN COUNT ON

The globalization of business, political and social unrest, and the requirement for employees to travel the world for business can expose employees and companies to risks not anticipated or understood. Whether your employees travel domestically or internationally for business, you should make sure your organisation isn't exposed to unexpected expenses that can occur.

Expenses for medical treatment, emergency medical evacuation, flight cancellations or lost luggage are just a few of the common costs that companies can face when their employees are on business trips.

Global Benefits Advisors has specifically designed its Travel Plan to protect companies and individual from the most common unexpected business travel expenses. With easy administration, Blanket plans that cover all employees without the need for individual applications for each trip your organization can be assured that all your travel health needs are covered.
